Department Application
(URL 1)

SevaOne API
(URL 2 receiver)

SevaOne Database

Department or Sakala (GSE)
Status API (URL 3)

Network rule: SevaOne servers and department servers are allow-listed in both directions

Step 1: Login through Seva Sindhu

1. Log in (Citizen, or assisted mode as a K1 / B1 / G1 / AJSK / BSK franchise)
2. Issue the Token and the unique edcsApplicationRefNo
3. Auto-submitting POST form for the department

Step 2: URL 1, the Department URL (provided by the department)

4. POST UserId, edcsApplicationRefNo, Token, assistedmode, ServiceId (mobile, digilockerid if required)
5. Verify the token received from SevaOne
6. HTTP 200, access allowed
7. Fill the application form and pay the department fee

Step 3: URL 2, the acknowledgement receiver (provided by SevaOne)

8. Generate the final acknowledgement
9. POST .../api/TokenIntegration/department-update (JSON, Authorization: Basic)

UserId, DepartmentApplicationRefNo, EdcsApplicationRefNo, Token,
payment status, fee date, fee, payment reference,
acknowledgement file type, date and base64 file

alt

[URL 2 call succeeds]

10. Save the response
11. Set status to SUCCESS
12. {DepartmentApplicationUpdateId, EdcsApplicationRefNo, DepartmentApplicationRefNo}
13. Redirect the browser back to SevaOne
14. Return to SevaOne
15. Read the saved response
16. Print the acknowledgement

[URL 2 call fails]

17. {"Message": "Data Not Inserted"}
18. Show the transaction as Failed

The department calls URL 2 again until it succeeds

Step 4: URL 3, status check (provided by the department or Sakala GSE)

loop

[Whenever SevaOne needs the status]

19. POST {GscNumber}
20. Application status
